

FMCSA Systems Release Notice

April 10, 2010

The following updates to MCMIS, L&I, EMIS and SAFER were released on Saturday, April 10, 2010. A general listing of overall enhancements, application data updates, and application fixes is below. For additional details or if you have questions, please contact the Federal Motor Carrier Safety Administration (FMCSA) Technical Support team at 617.494.3003 or FMCTechSup@dot.gov.

MCMIS (Motor Carrier Management Information System)

The following changes were implemented in MCMIS.

1) Overall enhancements

- An Oracle error resulting from generation of the "Timeliness of Inspection Uploads by Safety Inspector" report has been resolved.

2) Application fixes

- Inspection count calculation logic in MCMIS was changed to include Level 6 inspections.

3) Application data updates

- The holiday table was updated to cover the period 2011 through 2015.

L&I (Licensing and Insurance)

The following changes were implemented in L&I.

1) Overall enhancements

- Required fields on the "Log new Mexican OP application" screen were highlighted.

2) Application fixes

- An issue that occasionally occurred during MCS-150 registration has been resolved.
- An incorrect display of credit card acceptance information in L&I has been corrected.

3) Application data updates

- The Letters signature was updated.
- Wording in the L&I Discontinuance letter has been updated.
- The holiday table was updated to cover the period 2011 through 2015.

EMIS (Enforcement Management Information System)

The following change was implemented in EMIS.

1) Application data update

- The holiday table was updated to cover the period 2011 through 2015.

SAFER (Safety and Fitness Electronic Records)

The following changes were implemented in SAFER.

1) Application fix

- Inspection count calculation logic in MCMIS was corrected to include Level 6 inspections.

2) Application data update

- The link to "FMCSA data dissemination catalog" was changed.
